

Selectchemie AG appointed distributor of PureCircle Stevia products – from 1st April 2021

As you may know, in 2020, Ingredion Inc announced the completion of its acquisition of PureCircle Limited, the world's leading producer and innovator of plant-based stevia sweeteners and flavours for the food and beverage industry.

We are pleased to announce that Ingredion in EMEA is extending its business relationship with its distributor Selectchemie - as from the 1st April 2021, Selectchemie is appointed as a distributor of PureCircle to sell a broad portfolio of PureCircle's Stevia Products, across Switzerland and Liechtenstein.

PureCircle brings global innovation and manufacturing expertise, enabling Ingredion in EMEA to leverage its go-to-market model, formulation capabilities and broad ingredient portfolio. Selectchemie has been a valued distributor of Ingredion for many years.

Combining PureCircle's first class knowledge of sweeteners, flavours and formulation capabilities, with Selectchemie AG's extensive industry expertise and logistics capabilities, we are very much looking forward to this new relationship developing, to further support customers. In particular, we are excited that the combination of PureCircle and Selectchemie, will be able to drive new growth opportunities that are fully aligned with consumers' preferences for plant-based alternatives that are sustainable, good for the environment and taste great.

Please contact Marc Genet (marc.genet@selectchemie.com) at Selectchemie, with any questions relating to future supplies of PureCircle products.

Thank you in advance - we look forward to you benefiting from the great opportunities that this new distributor relationship can offer you.
